Family Weekend

October 5-7, 2023

During this year's Family Weekend there are many ways to engage with the academic side of the Northwood experience. This brief overview will explain the different happenings and give you guidance on class and teacher locations. We encourage you to attend as many as you are able.

LEAP Q & A

During lunch on Friday, stop by the LEAP table in the dining room to learn more about Northwood's unique experiential learning curriculum and have a chance to ask all your questions.

Signature Program Presentation

Directly following our Head of School's welcome, we will have a presentation from students engaging in our signature academic programs: Advanced STEM Research, Advanced Humanities Research, Robotics, Northwood Outing Club, and our new Peak Pathways initiative. This event will also include work from our music and art programs.

Student-Led Conferences

Friday from 8:00 – 10:00am we invite all families into our Uihlein Academic Building to participate in our first whole-school Student-Led Conferences. One of our faculty ushers will greet you at the door and help you get started. Each student has prepared a brief presentation to deliver to their family members detailing their accomplishments and challenges in the year thus far as well as their goals for the remainder of the year. Student-Led Conferences are effective ways of giving parents insight into their student's progress while keeping the student as the driver of the conversation, rather than a passive participant. There will still be time for parents to speak directly with teachers should they wish to (Saturday 8:00-10:00am).

Parent & Faculty Meetings

Any parent or guardian who wishes to speak to a faculty member directly can find them in their teaching spaces during this time. Use the guide attached to see locations.

Interim reports

All parents and guardians can access our first interim reports via the PCR portal as of Wednesday, October 4th. These reports provide a brief narrative assessment of your student's progress in each of their classes through the first five weeks of the school year.

Family Weekend

October 5-7, 2023
